

COMPRESSION LIMITER

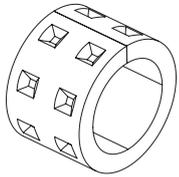

With flange

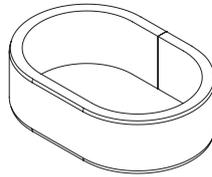

With holes

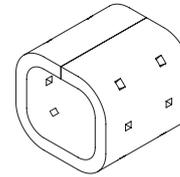

With grooves

With dimples for anti rotation / anti slip feature

Oval

Square with dimples for anti rotation / anti slip feature

APPLICATIONS

These products are designed in order to strengthen plastic, wooden and rubber bores. Of various shapes, and easily fitted in position thanks to their slot, these parts prove their functional utility in all kinds of assemblies where mechanical forces are exerted on components made of tender / soft materials.

plastic industry / automotive industry / electrical industry /
